

Summer Music

Continue learning and practicing music skills in the summertime with these family friendly ideas:

- Create musical instruments out of recycled materials such as water bottles or coffee cans. Use sticks from the yard as drum sticks!
- Attend a concert or musical performance at the many festivals and fairs across the county. For a list, visit Mrs. Braley's music website.
- Take a class at Lincoln Land Community College's "College for Kids" program.
- Practice rhythm and vocal skills by singing along to the radio.
- See Mrs. Braley's tips for practicing on the music website.

THE MONTH AHEAD

This month we are reviewing all of our music skills!

VOCABULARY

Students will review musical terms and symbols that we have learned throughout the school year.
