

Positive Behavior Interventions and Support
P.B.I.S.

What is Positive Behavior Interventions and Support?

Positive Behavior Interventions and Support (PBIS) is a proactive systems approach for creating and maintaining safe and effective learning environments in schools. PBIS ensures that all students have the social/emotional skills needed to ensure their success at school and beyond. The focus is to develop structure for teaching expected behaviors and social skills, creating student behavioral and academic support systems, and applying data based decision-making to discipline, academics and social/emotional learning.

Schools that implement PBIS with integrity and durability have teaching and learning environments that are:

- * Less reactive, aversive, dangerous, and exclusionary.
- * More engaging, responsive, preventive, and productive.
- * Address classroom management and disciplinary issues (attendance, tardies, and antisocial behavior)
- * Improve supports for students whose behaviors require more specialized assistance (emotional and behavioral disorders)
- * Most importantly, maximize academic engagement and achievement for all students.
