WORK IN PROGRESS THIS WEEK

Site/Field	Continued site grading.
	Formed and poured sidewalk along elementary school.
	Installed nailer board on inside track curb.
	Poured high jump concrete pad.
Athletic Building	Continued electrical and plumbing wall rough-ins.
	Completed setting roof trusses and sheathing.
Press Boxes	Completed CMU walls at home press box.
	Began CMU walls at away press box.

WORK PROJECTED NEXT WEEK

Site/Field	Begin west detention pond grading.
	Form and pour west road sidewalk.
	Form and pour pole vault and long jump pads.
Athletic Building	Begin MEP overhead rough-in.
	Complete roof underlayment.
	Begin fascia and gutter installation.
	Continue interior masonry walls.
Press Boxes	Complete CMU walls at away press box.
	Begin floor/roof joists and sheathing at both press boxes.

CONCERNS/DELAYS

1. Compaction issues at football field. After lime stabilization we are still failing proof roll compaction tests in approx. 15% of the field area. The design team is reviewing the results of pH testing completed to determine if the lime stabilization procedure was uniform and at the proper depth across the field and track areas.
